

2017 Eastern Lake Ontario Invasive Species Symposium Resources:

- **Protect U.S. Community Invasive Species Network** provides scripted Powerpoints, E-Learning Modules, Lesson Plans, and Youtube Channel for various pests and invasive species: <http://www.protectingusnow.org/>
- **The University of Georgia Center for Invasive Species and Ecosystem Health** provides education and outreach information on invasive species, as well as, a library of cited invasive species images
<http://www.bugwood.org/topics.html>
- **Urban Forestry Today** provides recently recorded webcasts from the University of Massachusetts Department of Environmental Conservation, Amherst, MA <http://www.urbanforestrytoday.org/videos.html>
- **National Plant Diagnostic Network** provides First Detectors Resources such as: taxonomic training modules,
<https://firstdetector.org/static/index.html>
- **Sentinel Plant Network** provides early detector/outreach resources for invasive species/plant pests and pathogens
<http://www.sentinelplantnetwork.org/content/about-us-0>

Templates for invasive species and forest pest interpretive signs:

<http://www.sentinelplantnetwork.org/spn-outreach>

- ***Phragmites* Adaptive Management Framework (PAMF)** is a new adaptive management strategy lead by the USGS and the Great Lakes Commission. PAMF provides the structure and consistency for land managers across the basin to combine data under one framework that can learn from management outcomes and generate an improved understanding of what treatment order, combination and timings will be most effective and most efficient in specific site conditions.

Visit the PAMF webpage at (www.greatlakesphragmites.net) Watch a 3 minute PAMF video at (<https://www.usgs.gov/media/videos/phragmites-adaptive-management-framework-pamf>) Watch a 20 minute NY PRISM Webinar recording (<https://www.youtube.com/watch?v=qw6Biz3GhxE&t=5s>)

Contact: Karen Alexander, Senior Program Specialist, Great Lakes Commission (kalexander@glc.org) Join PAMF by completing a short registration form at (www.greatlakesphragmites.net). Once you have joined, PAMF staff will be in touch with more information.
