

Understanding the Ecology and Issues of LAKE ONTARIO

Teachers, Formal and Non-Formal Educators All Welcome!

LEARN ABOUT LAKE ONTARIO'S ECOLOGY AND CURRENT ISSUES

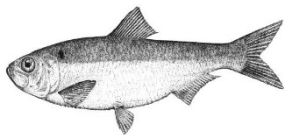

***FREE* Two-day Workshop: August 8th & 9th – 9:00AM - 4:00PM**

Classroom materials and lunch are included! Limited to 20 educators.

Participants will receive a **\$200 stipend** and educational materials, with the opportunity to earn an additional **\$100 stipend** during the 2018-2019 school year for conducting a Great Lakes stewardship project with your students.

***PLEASE NOTE:** A cancellation fee of \$25 will be charged for those registered who do not attend.

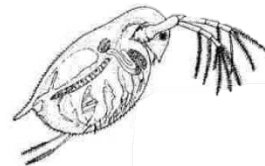

Do you want to learn about Lake Ontario issues from biologists and specialists who study the lake?

Have you wanted to get your students interested in the Great Lakes and the environment, but need to learn more?

Are you interested in obtaining Great Lakes classroom activities that you can share with your students?

Workshop Meeting Location: Rice Creek Field Station, Brownell Road, Oswego, NY 13126

Interact with scientists and naturalists at the Rice Creek Field Station, NYS Parks, and other unique areas. Learn about the exciting educational opportunities provided through the New York Great Lakes Ecosystem Education Exchange.

**FOR MORE INFORMATION AND REGISTRATION, CONTACT:
New York Sea Grant, (315)312-3042, SGoswego@cornell.edu**

To register, email your name, school name, grade you teach, number of students you teach each year, summer email (in case you do not monitor your school email), phone number (that you use during the summer) and indicate that you accept the cancellation fee of \$25 if you register and do not give 48-hour cancellation notice.

Sponsors: NY Great Lakes Ecosystem Education Exchange, Center for Great Lakes Literacy, New York Sea Grant, SUNY Oswego - Rice Creek Field Station, NYS Office of Parks Recreation and Historic Preservation and NYS Department of Environmental Conservation
