

Help Protect Guffin Bay

Help protect Guffin Bay/Creek from an invasive aquatic plant named Water Chestnut, *Trapa natans* that can cover entire waterbodies, impeding recreation. **If you act now, we can reduce and stop the spread of water chestnut populations that are now in Guffin Bay.**

Help Remove Water Chestnuts at Guffin Bay

Date: Wednesday, July 24th 2019

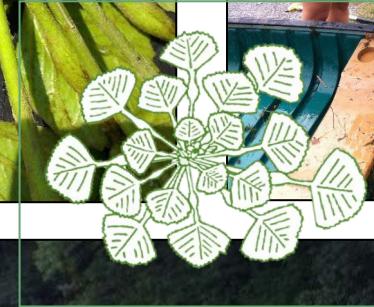

Time: 10 am-12pm

Location: Meet at 25282 Old Moffatt Road, Dexter, NY. Look for signs and a circular driveway just past a row of mailboxes. We will launch canoes/kayaks off of Fire Road near here.

Register: <https://forms.gle/KhMNfADzYY1ucZS19>

or contact megan.pistolese@tnc.org 315 387 3600 x7724

- **Bring your own everything:** watercraft (*limited canoe seating available upon request*) & life vest, a lunch, sunscreen, bug spray...
- **Learn how to conduct water chestnut pulls**— waterfront property owners & community members are encouraged to join!
